

## **Technical Official**

Hockey Australia's Technical Official courses operate within the Australian Sports Commission's National Officiating Accreditation Scheme (NOAS).

The Technical Official structure focuses on delivering training programs with quality presenters/assessors, resources and ongoing professional development. These training programs develop practical Technical Officiating skills and self-development, and therefore better trained officials to meet the demands of the game.

Hockey Australia together with our State and Territory Associations recognise that quality officiating has a significant influence upon players and their hockey experience, hence the recommendation for all Technical Officials to be accredited at an appropriate level.

### **The Pathway**

The three Technical Official accreditations are:

- Level 1
- Level 2
- Level 3

### **Pre-requisites:**

- Level 1 - No pre-requisites
- Level 2 - Level 1 Technical Official, Technical Official experience in local competition
- Level 3 - Level 2 Technical Official or Technical Officiating experience at National Championship level (incl. Under-Age)

### **[View Competencies](#)**

To gain a Level 1 Technical Official accreditation you must be able to demonstrate the required competencies.

Please contact your local State/ Territory Association regarding the Level 1 and 2 Technical Official courses and Hockey Australia regarding the Level 3 course.
