

Level 2 Coach

The Level 2 Coach Program is designed to train coaches in the essential concepts of coaching including planning and conducting training sessions; match day role; hockey skills and tactics; playing styles and structures; junior development; communication; risk management and ethical responsibilities.

It is a comprehensive training program involving seminars, pre and post seminar requirements and a practical assessment. The program is directed towards coaches involved in the higher levels of club/ school or representative hockey.

Pre and Post Seminar requirements are outlined on the Membership page, click on the 'HockeyEd Membership Login' link below and use your username and password to access this secure section.

There are four presentations in the Level 2 course as listed below. Only Manage Self is presented on-course at the same time as the practical component, with the other three presentations being completed on-line followed by a short test for each.

The seminars cover four modules:

- Manage Self
- Manage Athletes
- Manage Others
- Manage Environment

The Practical Assessment requires the coach to attend a 2 day practical session course as well as demonstrate the competencies outlined on the Practical Competency Checklist during a maximum of two training sessions and two hockey matches. Evidence of competencies needs to be shown at the higher levels of club/ school or representative hockey as a minimum.

Pre-requisite: Level 1 Coach accreditation

Registration Fee: \$40.00
